ICA Fluor Daniel is an affiliation of one of the world's largest engineering and construction companies with Mexico's oldest and largest construction companies. ICA Fluor Daniel specializes in providing engineering, procurement, and construction support services for the petroleum and petrochemical industries, power industry and other major construction ventures.

AMECO is providing equipment and tool services to all of ICA Fluor Daniel projects throughout Mexico, and other countries where ICA Fluor Daniel is operating. AMECO purchased client's equipment and tool assets and implemented services immediately to ongoing projects throughout Mexico. AMECO also initiated a replacement program designed to upgrade the ICA Fluor Daniel fleet with newer, more productive tools and equipment. ICA Fluor Daniel benefits from better utilization of equipment and tools, as well as increased up-time of rental assets.

AMECO supplies equipment ranging from cranes to welding machines, as well as tools and other construction support material and supplies. From a central base of operations north of Mexico City, AMECO supports ICA Fluor Daniel projects utilizing facilities and personnel on job sites to coordinate, maintain, and control equipment and tool services.

AMECO employees directly involved in providing services to ICA Fluor Daniel number over 125 and include an Operations Director, Site Managers, Mechanics and other support staff. Equipment inventory varies according to project requirements, and was recently valued at over \$7.5MM. The staff provides all equipment and tool sourcing, purchasing, and issuance with equipment, operation, supervision, maintenance and administrative functions.

Delivering integrated equipment and tool solutions to industry
