# AMECO – A World of Solutions with One Call

## WHAT WE DO FOR YOU

From the early stages of construction to plant operations and maintenance, AMECO is your trusted equipment service supplier. We provide worldwide construction support services and fleet management solutions that assist our clients in optimizing their capital projects and ongoing operations.

### Construction Site Services<sup>SM</sup>

Our Construction Site Services program offers customized equipment and tool solutions for small to large capital construction projects. No matter what you need – from sourcing, procuring, and delivering to managing and maintaining equipment, tools, supplies, and consumables – AMECO provides a single point of contact for every detail.

Whether you need scaffolding, fueling services, temporary blast resistant shelters, or management and training for an entire project, AMECO supplies what you need, on time and on budget.

### Operations Support Services

For ongoing operations after construction, AMECO's Operations Support Services program delivers customized fleet and tool management solutions to plant and mining facilities.

Entrusting operations to AMECO enables you to redirect your resources to core business activities. Worldwide, we focus on reducing operating costs and optimizing efficiency and performance.

This includes commercial and industrial fleet services, mining services, and sustaining operations – comprehensive fleet and tool management, plus onsite maintenance solutions for facilities, refineries, power plants, or chemical plants.

### Equipment Rental and Sales

With locations in Mexico, South America, Africa, and all the places in between, AMECO provides sales, rentals, parts, supplies, and services for equipment, new and used – we do it all. Our flexible equipment solutions for construction, infrastructure development, and earth moving means one call for all your equipment needs.
