

INTEGRATED SCAFFOLDING PROGRAM

Keep your scaffolding budget on track and increase efficiency with AMECO

Tired of going over budget on scaffolding? It is a common problem – labor required for scaffolding installation alone represents 20 percent of the total direct field labor requirement for a project. At AMECO, we have found the key to significant savings – reduce installation time by increasing labor efficiency.

Elevate your scaffolding management and save 15 to 20 percent on projects with AMECO

WHAT WE DO FOR YOU

AMECO has partnered with PERI to deliver an integrated scaffolding program that elevates scaffolding management to a planned project discipline. Incorporating scaffolding into project pre-planning enables innovative designs and custom solutions that can dramatically reduce field modifications and craft hours needed for installation. In addition, PERI's revolutionary material design makes it safer and quicker to install, further enhancing labor efficiency. You will have peace of mind with AMECO onsite technical expertise throughout the project.

Most Challenging Indirect Construction Costs

Source: Construction Industry Institute (CII)

^{*} AMECO has a solution for this challenge. Ask about our other indirect services offerings.

Project Savings

Projects can achieve up to 20 percent savings on labor costs due to the innovative scaffold material, pre-planning, and design capability of the program.

Reduced Material Costs

3D modeling designs accurately predict what is needed and reduce unplanned scaffolding requirements.

Predictability

The pre-planning design allows for increased predictability and forecasting to help minimize surprises and delays.

Increased Safety

Produced by PERI in Germany, all scaffolding material is and has a proprietary design that does not mix with other original equipment manufacturer components.

About AMECO

AMECO is a global leader in integrated mobile equipment and tool solutions. Our wide range of services supports heavy industrial, energy and chemicals, power, mining, manufacturing, construction, and government clients around the world. We bring top-tier people, practices, and assets together to reduce total costs and provide the best customer experience possible.
