

One Company, One Call, Countless Solutions.

▶ La Negra Operations Center

Location:

Antofagasta, Chile

▶ AMECO Project Quick Facts

Start of Services:

Ongoing since 2004

Scope of Services:

Maintenance and repair offices and shop, logistics center for the distribution of spare parts, replacement equipment, backup equipment, HR management, and labor relations.

Located on Ruta Cobre, the La Negra Operations Center boasts facilities that cover an area of nearly 218,000 square feet (20,000 square meters), designed specifically to support all AMECO mining operations in northern Chile.

La Negra is a strategic support to operations in northern Chile supplying everything from support, replacement, or standby equipment to spare parts. The operations center also houses a fully operational maintenance shop, staffed by highly qualified technical and professional mechanics.

One of AMECO's key differentiators is its ability to offer fully integrated services to customers. The La Negra Operations Center is a key element to offering this breadth of services to all of the mining operations in Northern Chile.

▶ Delivering Integrated *Mobile Equipment* and *Tool Solutions* to Industry Worldwide.
